KEELER/UK, Model: TonoCare –
Handheld Wireless Non-Contact Tonometer

KEY FEATURES:

- Advanced Handheld Wireless Non-Contact Tonometer for fast and accurate intraocular pressure (IOP) measurement.
- Air-puff technology provides gentle, comfortable, and completely non-invasive examinations.
- No direct corneal contact, eliminating the need for topical anesthetic and minimizing the risk of cross-infection.
- Lightweight, cordless, and ergonomic design for easy one-handed operation.
- Wireless operation allows greater flexibility in clinics, bedside examinations, and outreach screening.
- Fast automatic measurement with high accuracy and excellent repeatability.
- Large color LCD touchscreen with an intuitive user interface.
- Rechargeable lithium battery for extended operating time.
- Built-in memory for storing multiple patient measurements.
- Compact and portable design, ideal for glaucoma screening and routine eye examinations.

TECHNICAL SPECIFICATIONS:

Brand	KEELER (UK)
Model	TonoCare
Measurement Method	Non-Contact Air-Puff Tonometry
Measurement Range	5–50 mmHg
Measurement Time	Approximately 1–3 seconds
Display	Color LCD Touchscreen
Power Supply	Rechargeable Lithium Battery
Connectivity	Wireless
Weight	Approximately 500 g
Operation	Handheld, Portable

APPLICATIONS:

- Ophthalmology Clinics
- Eye Hospitals
- Glaucoma Screening
- Optometry Clinics
- Pediatric Ophthalmology
- Emergency & Bedside Eye Examinations
- Community Eye Camps
- Routine Eye Examinations
